

PraxisOnline24

Production-ready, 12-language SaaS for medical practices · Pre-revenue acquisition opportunity

STATUS	LIVE URL	LANGUAGES
Pre-Revenue	praxisonline24.com	12 (incl. RTL Arabic)
CODEBASE	DATABASE	AUTOMATION
~17,200 LoC JS	18 SQL tables	8 cron jobs

The Product

PraxisOnline24 is a fully built, deployed B2B SaaS for medical practices and small service businesses. It covers the entire patient lifecycle — public 24/7 online booking, multi-practitioner calendar with conflict detection, patient portal, PDF invoicing with VAT, cron-driven waitlist auto-offer, review collection & moderation, and a rule-based **AI Practice Manager** dashboard that turns daily operations data into prioritised actions across 14 sections. All UI shipped in **12 languages**, including RTL Arabic. Privacy-by-design: no health data ever stored; automatic patient-PII anonymisation 30 days after appointment.

What the Buyer Gets

- Full Git repository (clean main, 16 phases shipped)
- Domain praxisonline24.com + Cloudflare zone
- Live Render.com deployment (Frankfurt) with render.yaml committed
- Brand assets: name, slogan, logo system, 33 HTML pages, 902-line CSS
- 12 i18n catalogs + localized e-mail templates (booking, reminder, waitlist, trial, review)
- Documentation: 227-line README, 165-line DEPLOYMENT, 187-point QA checklist
- Full sale/ folder: investor report (DOCX), 12-slide pitch deck (PPTX), DD pack, transfer checklist

Stack

Node.js 18+ · Express 4.18 · SQLite via sql.js (Postgres migration path documented) · bcrypt + session auth · pdfkit · node-cron · nodemailer + Brevo · vanilla HTML/CSS/JS frontend (no framework lock-in) · Render.com Frankfurt · Cloudflare TLS + CDN.

Valuation Guidance

QUICK SALE	FAIR MARKET VALUE	OPTIMISTIC
\$8k–\$15k	\$18k–\$32k	\$35k–\$55k
10–15% of repl. cost As-is, 7-day close	25–35% of repl. cost Recommended list \$24,500	40–60% of repl. cost Strategic buyer w/ i18n monetisation

Replacement-cost anchor: €75k–€120k (~\$80k–\$130k). Reasoning in Pricing_Strategy.md.

Why Now

Owner built PraxisOnline24 as a learning + portfolio project; monetisation (Stripe) was paused in favor of a contact-form sales process, and the operator has shifted focus. The product is at a clean hand-off-ready state. Buyer inherits a deployed, multilingual, multi-tenant SaaS — ready to re-enable payment and launch into any of 12 language markets without rebuilding from scratch.

Next Steps

1. NDA → read-only repo invite. 2. Walk Demo_Guide.md (27 min hands-on). 3. Submit LOI via Acquire.com escrow. 4. ~10 days to full handover incl. domain EPP transfer.
